

AZAZ MOHAMMAD

Full Stack Developer

+91 6290332250 @ azazmohammad14@gmail.com Kolkata, West Bengal

SUMMARY

I am a passionate Full Stack Developer with a solid foundation in computer science and engineering, specializing in both backend and frontend development. My academic background is complemented by hands-on experience in developing efficient web applications. With a focus on user experience and seamless functionality, I have successfully contributed to various projects, enhancing my skills in API development, database management, and user authentication.

EXPERIENCE

Full Stack Development Intern

Appzillians

10/2023 - 03/2024 Kolkata, West Bengal

Sole proprietorship in software development.

Tripo - Ride And Delivery Platform:

- Worked on a digital menu card for a restaurant replacing the traditional menu pamphlet and giving good user experience.
- Led backend development for live projects with a team of 6 members, encompassing controller functions, database migrations, model creation, and route and template design.
- Engineered multiple APIs to extract and manipulate MySQL data, enhancing system functionality and business needs.
- Implemented user authentication with Laravel Sanctum, fortifying backend security.
- Conducted comprehensive API testing using Postman and Hoppscotch, ensuring system reliability.

Full Stack Developer

Appzillians

03/2024 - Present Kolkata, West Bengal

Sole proprietorship in software development.

- Developed a full-stack application similar to Ola/Uber with an additional feature for courier delivery.
- Engineered dynamic routing and pricing algorithms to handle both ride-sharing and courier delivery services efficiently.
- API Development, User Authentication, Database Management, Controller and Routing Design, API Testing on Postman.
- Designed responsive, user-friendly interfaces for ride-booking and courier tracking using Vue.js and Tailwind CSS.
