SUMMARY

Creative Frontend Developer specializing in Vue.js, with expertise in building dynamic, user-centric web applications. Skilled in crafting responsive interfaces, optimizing performance, and integrating APIs to deliver seamless and engaging user experiences.

EXPERIENCE

Frontend Developer
Appzillians

09/2024 - Present   West Bengal, India

Tripo - Ride And Delivery Platform:

- Developed a full-stack application similar to Ola/Uber with an additional feature for courier delivery.
- Engineered dynamic routing and pricing algorithms to handle both ride-sharing and courier delivery services efficiently.
- API Development, User Authentication, Database Management, Controller and Routing Design, API Testing on Postman.
- Designed responsive, user-friendly interfaces for ride-booking and courier tracking using Vue.js and Tailwind CSS.

Full Stack Developer Intern
Appzillians

10/2023 - 03/2024   West Bengal, India

Sole proprietorship in software development.

- Worked on a digital menu card for a restaurant replacing the traditional menu pamphlet and giving good user experience.
- Led backend development for live projects with a team of 6 members, encompassing controller functions, database migrations, model creation, and route and template design.
- Engineered multiple APIs to extract and manipulate MySQL data, enhancing system functionality and business needs.
- Implemented user authentication with Laravel Sanctum, fortifying backend security.
- Conducted comprehensive API testing using Postman and Hoppscotch, ensuring system reliability.
