INTERNSHIP EXPERIENCE

Full Stack Developer Intern in Appzillians   Oct. 2023 - Mar. 2024

Sonnet – Digital Restaurant Menu & Ordering System

- Worked on a digital menu card for a restaurant replacing the traditional menu pamphlet and giving good user experience.
- Led backend development for live projects with a team of 6 members, encompassing controller functions, database migrations, model creation, and route and template design.
- Engineered multiple APIs to extract and manipulate MySQL data, enhancing system functionality and business needs.
- Implemented user authentication with Laravel Sanctum, fortifying backend security.
- Conducted comprehensive API testing using Postman and Hoppscotch, ensuring system reliability.
- **Techstacks used:**- PHP, Laravel, MySQL, Tailwind CSS.

WORK EXPERIENCE

Full Stack Developer in Appzillians   Mar. 2024 - present

Tripo - Ride And Delivery Platform:

- Developed a full-stack application similar to Ola/Uber with an additional feature for courier delivery.
- Engineered dynamic routing and pricing algorithms to handle both ride-sharing and courier delivery services efficiently.
- API Development, User Authentication, Database Management, Controller and Routing Design, API Testing on Postman.
- Built a scalable and secure backend using Laravel, implementing robust APIs and database architectures for seamless operations.
- Developed and managed the backend using Laravel, including controllers, models, migrations, views, authentication, and payment integration.
- Designed responsive, user-friendly interfaces for ride-booking and courier tracking using Vue.js and Tailwind CSS.
- **Techstacks used:**- PHP, Laravel, PostSQL, Vue.js, Tailwind CSS.

PROJECTS

Emazon :- PHP, Laravel, Vue, MySQL, Tailwind CSS   Jan. 2024 - Mar. 2024

- Developed a full-stack e-commerce platform for apparels using Laravel and Vue, showcasing expertise in backend and frontend technologies.
- Implemented secure user authentication with Laravel Sanctum and integrated admin authentication in the frontend.
- Created a responsive Single Page Application (SPA) with Vue for streamlined admin dashboard functionality.
- Created dashboard page showing monthly analytics of products and other details in the form of graphs using Apexcharts.
- Integrated Razorpay payment gateway for secure online transactions.

WanderLust:- Javascript, Express.js, MongoDb, Bootstrap   Aug. 2023 - Oct. 2023

- Developed an Airbnb clone to learn full-stack development.
- Utilized passport for secure user authentication.
- Implemented multer for seamless image uploads
- Integrated mapbox API for dynamic map-based location display.
